Sino American Oil Company

Date and state (or jurisdiction) of incorporation (also describe any changes to incorporation since inception, if applicable) Please also include the issuer’s current standing in its state of incorporation (e.g. active, default, inactive):

The Company was incorporated on October 31, 2005 13, 2006 under the laws of the state of Nevada. Sino American Oil Company is a Nevada company incorporated as Raphael Industries Ltd. on October 31, 2005. On November 11, 2010, we changed our name to Sino American Oil Company. We accomplished this by creating a wholly owned subsidiary corporation by the name of Sino American Oil Company, a Nevada corporation and merging it into Raphael Industries Ltd. Raphael Industries Ltd. was the surviving entity. As part of the merger, we changed our name from Raphael Industries Ltd. to Sino American Oil Company. By changing the corporate name in this manner we were not required to obtain shareholder approval to change our name. The new name is intended to reflect our new business direction which is exploration for oil and gas.

The Company had performed a domestication (a re-domicile) action via a “merge continuance” from Nevada to Wyoming. This was effectuated on or about August 27 2018.

The Company is in active status in Wyoming.

Has the issuer or any of its predecessors ever been in bankruptcy, receivership, or any similar proceeding in the past five years?

5) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations. In answering this item, please include the following:

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

The Company is engaged in the development, sales and exploration of hydrocarbon energy. Oil, shale, methane, coal, coalbed methane, petroleum, refined crude oil, diesel, petroleum, gasoline, greases; and the import and export of such commodities. It aims to generate revenue by acquiring and/or developing properties that have hydrocarbon reserves, or reselling other land's and company's reserves, and brokering import and export deals for the above forementioned commodities.

The Company has engaged with a third party company by way of joint-venture, where the Company is allowed to explore the field of leased land in Queensland Australia. This project has been started in the calendar year of 2010. Five years have past and both companies (the Company and the third party company) has surveyed and has conducted tests of presence or non-presence of significant oil reserves.

The joint venture duration and written agreement is for 5 years. This year marks the 5th complete year. The Company has devoted less time this year on the Queensland discovery, and is pursuing other hydrocarbon energy sources for extraction, export and reselling.

The nature of business has expanded from being just an exploration company that is specifically for 1 parcel of land, to be more inclusive to solicity and obtain more leases from all parts of the world.

It has started to analyze a property in Peru, through the experience of a third-party investor. The Company is proceeding to assume the equity of the third party investor of the potential hydrocarbon property in Peru.

As of September 5 2016, in the last quarter of the fiscal year end of 2016, the Company has purchased the equity of a third-party person's common shares of the private company, Percana Mining Company, which is an exploration company in Peru, and promissory notes of a publicly traded company relating to the Peruvian coal mine. The purchase is to gain equity in potential producing coal mines, which is in line with the strategy of the Company's business.

On January 23rd 2017, 150,000,000 common shares were issued as consideration for the equity that Richard Tang vended in.

As of today, the Company is still holding assets/equity of the Peruvian anthracite coal mine, Percana Mining Company. And the Company is still performing business development activities to acquire more valuable assets/equity

B. Describe any subsidiaries, parents, or affiliated companies, if applicable, and a description of their business contact information for the business, officers, directors, managers or control persons. Subsidiary information may be included by reference

The Company has a working relationship with a third party person that has assets or equity in a anthracite coal mine in the country of Peru, as of September 2015.

As of September 5 2016, in the last quarter of the fiscal year end of 2016, the Company has purchased the equity of a third-party person's common shares of the private company, Percana Mining Company, which is an exploration company in Peru, and promissory notes of a publicly traded company relating to the Peruvian coal mine. The

purchase is to gain equity in potential producing coal mines, which is in line with the strategy of the Company's business.

On January 23rd 2017, 150,000,000 common shares were issued as consideration for the equity that Richard Tang vended in.

As of today, the Company is still holding assets/equity of the Peruvian anthracite coal mine, Percana Mining Company. And the Company is still performing business development activities to acquire more valuable assets/equity

C. A. The form of organization of the Issuer:

- Sino American Oil Company. is a Wyoming Corporation. It was once a Nevada Corporation but has been re-domesticated via a merge continuance to the Wyoming state.

D. B. The Year that the Issuer (or predecessor was organized):

The Company was incorporated on October 31, 2005 under the laws of the state of Nevada.

The Company's fiscal year end is 09/30

Sino American Oil Company. is a Wyoming Corporation. It was once a Nevada Corporation but has been re-domesticated via a merge continuance to the Wyoming state.

Describe the issuers' principal products or services, and their markets The Company operates under SIC Codes – 7331

6) Issuer's Facilities

The goal of this section is to provide a potential investor with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer, give the location of the principal plants and other property of the issuer and describe the condition of the properties. If the issuer does not have complete ownership or control of the property (for example, if others also own the property or if there is a mortgage on the property), describe the limitations on the ownership.

If the issuer leases any assets, properties or facilities, clearly describe them as above and the terms of their leases.

Corporate Registered Agent Office: Sino American Oil Company, 2123 Pioneer Ave
Cheyenne, WY 82001

Item 1 Name of Issuer and Address of Executive Offices

Sino American Oil Company is a Nevada company incorporated as Raphael Industries Ltd. on October 31, 2005. On November 11, 2010, we changed our name to Sino American Oil Company. We accomplished this by creating a wholly owned subsidiary corporation by the name of Sino American Oil Company, a Nevada corporation and merging it into Raphael Industries Ltd. Raphael Industries Ltd. was the surviving entity. As part of the merger, we changed our name from Raphael Industries Ltd. to Sino American Oil Company. By changing the corporate name in this manner we were not required to obtain shareholder approval to change our name. The new name is intended to reflect our new business direction which is exploration for oil and gas.

In the prior years, we have stated that “the Company is now in the business of exploring lands for oil and gas deposits, and selling them to commodity buyers”. We have now expanded on nature of business of this issuer (the Company), by saying “The Company is not in the business of exploring lands for hydrocarbon deposits, including gas, oil, coal. Clinker, charcoal, methane, LNG, and also any alternative energy properties suitable for energy production” We have updated this statement in the recent months as our 5 years agreement to joint venture with Sentry Petroleum on the Queensland project is near finality, and so the Company is expanding its business to gain opportunities in any viable energy project.

The Company has not generated any revenue to date and consequently its operations are subject to all risks inherent in the establishment of a new business enterprise. Effective with this filing, the Company will not continue to report as “Development Stage” as permitted by recent changes in the ASC’s.

The accompanying financial statements have been prepared by the Company without audit. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations, and cash flows at Sept 30, 2018, and for all periods presented herein, have been made.

The results of operations for the year ended Sept 30, 2018 are not necessarily indicative of the operating results for future periods.

Mr. Hughes was our President from February 2010 until December 19th 2016.

Mr. Richard Tang is our President as of December 19th 2016. Principal Executive Officer, Principal Financial Officer, Principal Accounting Officer, Secretary and Treasurer. Mr. Tang has experience in SEC filings, corporate governance. Richard Tang has experience in analyzing mining logistics, and specifically coal, anthracite, and clinker.

SINO AMERICAN OIL COMPANY
Notes to the Financial Statements
Sept 30, 2017 and 2018(Unaudited)

1.NATURE OF OPERATIONS

Sino American Energy Company (“ the Company ”) was incorporated as Raphael Industries Ltd. on October 31, 2005 under the laws of the State of Nevada. At the outset, its principal business was to market database for commercial use in newsletters, direct mail, and internet marketing promotions. On November 11, 2010 the company changed its name to Sino American Oil Company in anticipation of the company ’ s new business direction which is the exploration for oil and gas.

The financial statements are prepared in accordance with generally accepted accounting principles in the United States on a going concern basis which contemplates the realization of assets and discharge of liabilities and commitments in the normal course of business. To date the Company has funded operations through the issuance of capital stock and the limited generation of revenues. The Company has no operating history in its anticipated business direction, has not generated revenues from such operations, and may require additional capital requirements. As at September 30, 2018, the Company has an accumulated deficit of (965,101). These factors raise substantial doubt about the Company’s ability to continue as a going concern. These financial statements do not include any adjustments that might result from the outcome of this uncertainty.

\$1,000,000 was invested to Sentry Petroleum Ltd, and is an off-balance activity, meaning it is an investment asset that is not deemed in control by the Company. This is noted in all of the financial statements in this document.

Management’s plan is to continue raising additional funds through future equity or debt financings, as needed, until it can generate sufficient revenues to maintain sustainable profitable operations. The Company has sufficient capital to maintain operations for the next 12 months. The Management’s plan is to expect activity and reports from its \$1,000,000 investment into Sentry Petroleum LTD..

Management’s plan is to pursue exploration of all hydrocarbon related sites. It has a vested interest (equity) in a Peruvian coal mine in Trujillo Peru.

2.GOING CONCERN

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. In view of these matters, the Company’s ability to continue as a going concern is dependent upon the continued financial support from its management, its ability to identify future investment opportunities and obtain the necessary debt or equity financing, and its ability to grow operations and to achieve a level of profitability. The Company intends on financing its future development activities and its working capital needs largely from the sale of public equity securities with some additional funding from other traditional financing sources, including term notes and proceeds from sub-licensing agreements, or selling products from fruitful drill oil deposits sold to operators; but until such time that funds provided by operations are sufficient to fund working capital requirements. However, there can be no assurance that these arrangements will be sufficient to fund its ongoing capital expenditures, working capital, and other cash requirements. The outcome of these matters cannot be predicted at this time. These factors raise substantial doubt regarding the Company’s ability to continue as a going concern. The financial statements of the Company do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classifications of liabilities that might be necessary should the Company be unable to continue as a going concern.

Sino American Oil Company is a Nevada company incorporated as Raphael Industries Ltd. on October 31, 2005.

On November 11, 2010, we changed our name to Sino American Oil Company. We accomplished this by creating a wholly owned subsidiary corporation by the name of Sino American Oil Company, a Nevada corporation and merging it into Raphael Industries Ltd. Raphael Industries Ltd. was the surviving entity. As part of the merger, we changed our name from Raphael Industries Ltd. to Sino American Oil Company. By changing the corporate name in this manner we were not required to obtain shareholder approval to change our name. The new name is intended to reflect our new business direction which is exploration for oil and gas.

We are an oil and gas exploration stage company. Since our change of business direction we have had no revenues and

have been issued a going concern opinion from our auditors. Our registered office and agent for service is located at 2123 Pioneer Avenue, Cheyenne, Wyoming, 82001 and we maintain a corporate office at #40875 – 1574 Gulf Rd, Point Roberts, WA, 98281. Our telephone 1-360-361-8066, and our corporate website is www.sinoamericanoil.com. We have another website domain www.oily.website as well.

The Company is engaged in the development, sales and exploration of hydrocarbon energy. Oil, shale, methane, coal, coalbed methane, petroleum, refined crude oil, diesel, petroleum, gasoline, greases; and the import and export of such commodities. It aims to generate revenue by acquiring and/or developing properties that have hydrocarbon reserves, or reselling other land's and company's reserves, and brokering import and export deals for the above aforementioned commodities.

The Company has engaged with a third party company by way of joint-venture, where the Company is allowed to explore the field of leased land in Queensland Australia. This project has been started in the calendar year of 2010. Five years have past and both companies (the Company and the third party company) has surveyed and has conducted tests of presence or non-presence of significant oil reserves.

The joint venture duration and written agreement is for 5 years. This year marks the 5th complete year. The Company has devoted less time this year on the Queensland discovery, and is pursuing other hydrocarbon energy sources for extraction, export and reselling.

The nature of business has expanded from being just an exploration company that is specifically for 1 parcel of land, to be more inclusive to solicit and obtain more leases from all parts of the world.

It has started to analyze a property in Peru, through the experience of a third-party investor. The Company is proceeding to assume the equity of the third party investor of the potential hydrocarbon property in Peru.

As of September 5 2016, in the last quarter of the fiscal year end of 2016, the Company has purchased the equity of a third-party person's common shares of the private company, Percana Mining Company, which is an exploration company in Peru, and promissory notes of a publicly traded company relating to the Peruvian coal mine. The purchase is to gain equity in potential producing coal mines, which is in line with the strategy of the Company's business. This has been added to the asset line under "fixed assets and intangible assets" and also added to the addition paid-in capital lines. Comparatively to the current assets, this is considered to be a significant addition to the balance sheet as it doubles the equity.

Ronald Hughes has resigned as officer as of December 19 2016.

Richard Tang has been appointed on December 19 2016, and has been issued 150,000,000 in consideration of adding the equity of the Peruvian coal mine.

3.SUMMARY OF SIGNIFICANT ACCOUNTINGPOLICIES

Basis of Presentation

The financial statements of the Company have been prepared in accordance with generally accepted accounting principles in the United States of America and are presented in US dollars.

Cash and Cash Equivalents

For purposes of Statements of Cash Flows, the Company considers all highly liquid debt instruments purchased with a maturity date of three months or less to be cash equivalents.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The Company regularly evaluates estimates and assumptions related to the deferred income tax asset valuation allowances. The Company bases its estimates and assumptions on current facts, historical experience and various other factors that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by the Company may differ materially and adversely from the Company's estimates. To the extent there are material differences between the estimates and the actual results, future results of operations will be affected. Included in these estimates are assumptions about collection of accounts receivable, impairment of intangibles, useful life of property and equipment, stock-based compensation, beneficial conversion of convertible notes payable, deferred income tax asset valuation allowances, and valuation of derivative liabilities.

Foreign Currency Translation

The financial statements are presented in United States dollars. In accordance with ASC-830, "Foreign Currency Matters", foreign denominated monetary assets and liabilities are translated into their United States dollar equivalents using foreign exchange rates which prevailed at the balance sheet date. Non-monetary assets and liabilities are translated at the exchange rates prevailing on the transaction date. Revenue and expenses are translated at average rates of exchange during the period. Gains or losses resulting from foreign currency transactions are included in results of operations.

Fair Value of Financial Instruments

The carrying value of cash, accounts payable and accrued liabilities, loans from related party and loan payable approximates their fair value because of the short maturity of these instruments. Unless otherwise noted, it is management's opinion the Company is not exposed to significant interest, currency or credit risks arising from these financial instruments.

Income Taxes

The Company follows the liability method of accounting for income taxes. Under this method, deferred income tax assets and liabilities are recognized for the estimated tax consequences attributable to differences between the financial statement carrying values and their respective income tax basis (temporary differences). The effect on deferred income tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. At Sept 30, 2013, a full-deferred tax asset valuation allowance has been provided and no deferred tax asset has been recorded.

Basic and Diluted Loss Per Share

The Company computes loss per share in accordance with ASC-260, "Earnings per Share" which requires presentation of both basic and diluted earnings per share on the face of the statement of operations. Basic loss per share is computed by dividing net loss available to common shareholders by the weighted average number of outstanding common shares during the period. Diluted loss per share gives effect to all dilutive potential common shares outstanding during the period. Dilutive loss per share excludes all potential common shares if their effect is anti-dilutive.

The Company has no potential dilutive instruments and accordingly basic loss and diluted loss per share are equal.

Long-Lived Assets

The Company has adopted ASC-360, "Property, Plant and Equipment" which requires that long-lived assets and certain identifiable intangibles held and used by the Company be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Events relating to recoverability may include significant unfavorable changes in business conditions, recurring losses, or a forecasted inability to achieve break-even operating results over an extended period. The Company evaluates the recoverability of long-lived assets based upon forecasted undiscounted cash flows. Should impairment in value be indicated, the carrying value of

intangible assets will be adjusted, based on estimates of future discounted cash flows resulting from the use and ultimate disposition of the asset. ASC-360 also requires assets to be disposed of be reported at the lower of the carrying amount or the fair value less costs to sell.

The long lived assets include equity in Percana Mining Company, passed onto the Company by Richard Tang on September 5th 2016. The equity is by form of shares in the private company that is developing an anthracite coal mine.

It also has given a \$1,000,000 amount to Sentry petroleum for the development of an Australian oil and gas site in 2010.

Research and Development

The Company accounts for research and development costs in accordance with the ASC-730, "Research and Development". Under ASC-730, all research and development costs must be charged to expense as incurred. Accordingly, internal research and development costs are expensed as incurred. Third-party research and developments costs are expensed when the contracted work has been performed or as milestone results have been achieved. Company-sponsored research and development costs related to both present and future products are expensed in the period incurred. The Company incurred research and development expenditures of \$0 for the periods ended September 30, 2018 and 2017.

Concentrations of Credit Risk

Financial instruments and related items, which potentially subject the Company to concentrations of credit risk, consist primarily of cash and cash equivalents. At Sept 30, 2017, the Company has cash in the amount of \$0. A promissory note was cashed in to pay for expenses that needed to be paid, of this cash, all of it, \$49,032 of cash was used for the entity registration and to pay for administrative expenses. The Company places its cash and temporary cash investments with credit quality institutions.

Revenue Recognition

The Company will recognize revenue in accordance with ASC-605, "Revenue Recognition," which requires that four basic criteria must be met before revenue can be recognized: (1) persuasive evidence of an arrangement exists; (2) delivery has occurred; (3) the selling price is fixed and determinable; and (4) collectability is reasonably assured. Determination of criteria (3) and (4) are based on management's judgments regarding the fixed nature of the selling prices of the products delivered and the collectability of those amounts.

Provisions for discounts and rebates to customers, estimated returns and allowances, and other adjustments are provided for in the same period the related sales are recorded. The Company will defer any revenue for which the product has not been delivered or is subject to refund until such time that the Company and the customer jointly determine that the product has been delivered or no refund will be required.

Advertising

The Company follows the policy of charging the costs of advertising to expenses incurred. The Company incurred \$0 in advertising costs during the periods ended Sept 30, 2018 and 2017.

Stock-based Compensation

A compensation by way of stock was given to Richard Tang. 150,000,000 common shares of the Company was issued to Richard Tang on January 23rd 2017 for the consideration of him given the Company equity of Percana Mining Company. It was a substantial amount of equity with valuation of \$1.599Million. None reported for this and the previous fiscal year of 2018.

4. EQUITY

Equity consists of the following:

- **Common Stock** Par value \$0.001 per share
 550,000,000 Authorized
- **Preferred Stock** none

Common Stock

As of Sept 30, 2017, there are 193,534,500 of common stock issued and outstanding

Preferred Stock

None

5. LOANS PAYABLE

None. The management of the Company has forgiven its year of compensatory payroll in light of the cash-reserves and the inability of the Company to pay. It is treated as an off-balance goodwill.

6. RELATED PARTY TRANSACTIONS

As of Sept 30, 2018, the Sentry Petroleum Company, owes the Company \$1,000,000 and is posted as a off-balance sheet loan.

A significant transaction occurred on September 5, 2016 whereby the Company has acquired sizeable percentage ownership of a private and public company's equity that is involved with a anthracite coal mine in Trujilo Peru. The transaction is worth approximately \$1.599 million.

In 2017, of the \$1.599 of equity referenced in the equity, \$49,032 was sold to pay for bills, namely the Transfer Agent, registered agent, state incorporation, and state redomestication (merger continuance from Nevada to Wyoming), and arrears and accumulated penalties that has only been recognized in 2017.

7. CONTINGENCY

Not applicable

9. SUBSEQUENT EVENTS

The Company has determined the following material subsequent events up to and including the date of the issuance of these financial statements that warrant disclosure or recognition in the financial statements.

No subsequent events were eventful.

Item 4 Management Discussions and Analysis

THE FOLLOWING ANALYSIS OF THE RESULTS OF OPERATIONS AND FINANCIAL CONDITION OF THE COMPANY SHOULD BE READ IN CONJUNCTION WITH THE CONSOLIDATED FINANCIAL STATEMENTS, INCLUDING THE NOTES THERETO OF THE COMPANY, CONTAINED ELSEWHERE IN THIS REPORT.

Forward-looking statements in this report may prove to be materially inaccurate. In addition to historical information, this report contains forward-looking information that involves risks and uncertainties. The words "may", "will", "expect", "anticipate", "continue", "estimate", "project", "intend" and similar expressions are intended to identify forward-looking statements. Actual results may differ materially from those included within the forward-looking statements as a result of factors, including the risks described above and factors described elsewhere in this report.

Strategy

Our goal is to be an oil and gas producer, and sell our hydrocarbon / petroleum products to the commodity platforms around the world.

Our overall strategy utilizes our core competencies in the design, deployment and management , and the quality of the projects that we have engaged in. We have been surveying and exploring the fields leased by Sentry Petroleum company, in Queensland Australia, and continue to survey the lands for shale and coalbed methane deposits.

The Company has engaged with Sentry Petroleum company by way of joint-venture, where the Company is allowed to explore the field of leased land in Queensland Australia. This project has been started in the calendar year of 2010. Five years have past and both companies (the Company and the third party company) has surveyed and has conducted tests of presence or non-presence of significant oil reserves.

The Company is engaged in the development, sales and exploration of hydrocarbon energy. Oil, shale, methane, coal, coalbed methane, petroleum, refined crude oil, diesel, petroleum, gasoline, greases; and the import and export of such commodities. It aims to generate revenue by acquiring and/or developing properties that have hydrocarbon reserves, or reselling other land's and company's reserves, and brokering import and export deals for the above aforementioned commodities.

The joint venture duration and written agreement is for 5 years. This year marks the 5th complete year. The Company has devoted less time this year on the Queensland discovery, and is pursuing other hydrocarbon energy sources for extraction, export and reselling.

The nature of business has expanded from being just an exploration company that is specifically for 1 parcel of land, to be more inclusive to solicit and obtain more leases from all parts of the world.

It has started to analyze a property in Peru, through the experience of a third-party investor. The Company is proceeding to assume the equity of the third party investor of the potential hydrocarbon property in Peru.

On September 5 2016, in the last quarter of the fiscal year end of 2016, the Company has purchased the equity of a third-party person's common shares of the private company, Percana Mining Company, which is an exploration company in Peru, and promissory notes of a publicly traded company relating to the Peruvian coal mine. The purchase is to gain equity in potential producing coal mines, which is in line with the strategy of the Company's business. The purchase is considered large for the Company since it adds \$1.599Million of equity to the balance sheet.

The Company is spreading its business scope to all parts of the world, and its strategy is to acquire as many good-valued sites for development.

SIGNIFICANT ACCOUNTING POLICIES

A summary of significant accounting policies is included in Note 3 to the unaudited consolidated financial statements included in the Company's Financial Statements for the year ended Sept 30,

2018 attached hereto. Management believes that the application of these policies on a consistent basis enables the Company to provide useful and reliable financial information about the company's operating results and financial condition.

Results of operations

Year ended Sept 30, 2018 and 2017.

Revenue and Cost of Sales

During the year ended Sept 30, 2018 and 2017, the Company did not record sales due to the fact that the Company has been substantially funded by the director, and the director has been devoting his efforts on acquisitions rather than sales.

The 5 year horizon plan of exploring the Queensland properties (for shale deposits and coalbed methane) has lapsed and has not given any profit or revenue yields.

During the year ended Sept 30, 2018 and 2017, the Company recorded Cost of Sales expenses of \$0 and \$0 respectively, for cost of retaining the dedicated time towards the projects.

Selling, general and administrative expenses

General and administrative expenses consist primarily of consulting compensation and expenses for executive, administrative and operations, including legal and accounting fees, and facility and office-related costs such as Internet and web hosting, and depreciation expense.

For the year ended Sept 30, 2018 and 2017, the Company recorded cash expenses of \$49,032 and professional services of \$0 (the annual salary of \$60,000 was forfeited/forgiven due to the cash-strap). The actual cash expense exceeded the actual cash on hand, and the balance, and so one of the promissory note assets it held (in the Percana Mining Co) had been sold to a third party to liquidate, providing the Company with \$49,032. The administrative expenses were necessary to keep the state level corporate files from being in 'revoked' status. The expenses could not be ignored or belayed any longer.

Interest Expense

For the year ended Sept 30, 2018 and 2017, the Company recorded interest expense of \$0 and \$0, respectively. This is a reclassification from the way SG&A was previously reported.

Net Loss

For the year ended Sept 30, 2017 and 2016, the Company had a loss of \$0 and \$0,000 respectively. It was zero because the management had not booked or made loans payable for their services, given the cash-strapped situation of the Company.

Income Taxes

No provision for federal and state income taxes has been recorded as the Company incurred net operating losses since inception. The net operating losses will be available to offset any future taxable income. Given the Company's operating history, losses incurred to date and the difficulty in accurately forecasting future results, management does not believe that the realization of the potential future benefits of these carry forwards meets the criteria for recognition of a deferred tax asset required by generally accepted accounting principles. Accordingly, a full 100% valuation allowance has been provided.

Cash and cash equivalents were \$0 at Sept 30, 2017. Net cash used in operating activities of \$49,032.

The Company has capital expenditures during the year ended Sept 30, 2018. On September 5, 2016, it has acquired shares and promissory notes from a third party accredited investor for the valuation of \$1.599 million. It was booked as an asset, and the additional-paid-in capital lines of the balance sheet.

During the year ended Sept 30, 2016 and 2015, the Company issued the following shares of common stock:

150,000,000 common shares, constituting 77.50% beneficial ownership, to Richard Tang, on January 23rd 2017.

As of September 30 2018, No more shares have been issued since then.
